1) Academic Goal: Increase Reading Proficiency by 2% between September 2022 and May 2023 as measured by Acadience.

- Set an attainable goal. RTI aides? with focus on literacy with math included if needed. Instead of literacy aids? Because the district changed Math programs also. We need a proposal for the goal.

More training for teachers in June on district direction. Admin was just trained on it with follow up training as well. Is there a sub goal to focus on? Superintendent says focus on a few things. Aides are used under direction of teams.
